

### IT'S SMALL BUT THINKS BIG!

When you think big about your remote control needs, think small. Think *telePilot™*. Magnetek brings you the most functional and operator-friendly radio control product on the market today.

- Order *telePilot™* preprogrammed from the factory to fit your application, or customize it yourself via the optional Radio Control Programmer (RCP) and USB/IR Adapter
- Features an ergonomically designed lightweight transmitter
- 4-in-1 transmitter design supports multiple cranes via a password protected access code
- Extremely durable, extruded aluminum transmitter housing
- Available in three-motion, two-speed and three-auxiliary functions, or three-motion, two-speed, one auxiliary function, and A, A + B or B
- Unit designed with sub-voltage technology providing a much longer operating life
- Switches designed with a rated life of over 1 million operations

*telePilot* is one of the most technologically advanced remote controls in the industry. **Great things do come in small packages!**

### OUR FEATURES SET IT APART FROM THE COMPETITION

- Three motions standard, up to five motions optional via A, A+B, B select
- Single or two-speed models available
- Electronically synthesized frequency allows for 31 operating channels—no crystals to break
- Special output mapping available to customize your crane configurations
- Lightweight, ergonomically designed transmitter
- *telePilot™* software included in every purchase
- Transmitter backward compatible to most older receivers—preserving your 10K receiver investment
- Stores four complete system configurations eliminating the cost and hassle of tracking and maintaining a fleet of spares
- *telepilot* is designed to minimize power consumption, providing one of the longest life batteries in the industry
- Three battery options available—AA batteries (standard), rechargeable lithium, or disposable lithium

## MOST DURABLE TRANSMITTER ON THE MARKET

- Durable, lightweight, extruded aluminum transmitter housing
- Rubber coated, polycarbonate end caps
- Switches rated for 1 million plus operations
- Shock mounted circuit boards are more impact resistant

## RADIO CONTROL PROGRAMMER (RCP) AND USB/IR ADAPTER PACKAGE OPTION

- Allows you to program system settings and do custom output mapping from your Windows PC
- Easily create and save your system configurations for future use
- Set up a spare transmitter with minimal effort
- Program on your PC or in standalone mode via the USB/IR Adapter
- Package includes a CD, activation code, USB cable, and manual

## RECEIVER DELIVERS OPTIONS YOU WANT

- Receivers available with various numbers of outputs
- Optional pre-wired "pigtail" available so unit can be installed and wired quickly
- Radio-ready transfer switch connections reduce installation time
- Receiver design can be configured to be operated with up to eight transmitters
- Internal master relay disable switch allows you to safely test the controls "live" without moving the crane
- Fusing and suppression on all power and control lines—built for the harshest applications
- Compact receiver design installs easily in the most confined spaces
- Controller and diagnostic LEDs allow you to perform diagnostics without opening the receiver door
- Available in 12 outputs
- Synthesized RF — up to 31 operating channels

USB/IR Adapter

Synthesized receiver allows you to quickly and easily change frequency without tuning.
